International application No. PCT/EP2004/012356

	Bo	χN	o. I Basis of the opinion
1.			gard to the language, this opinion has been established on the basis of the international application in guage in which it was filed, unless otherwise indicated under this item.
		lar	is opinion has been established on the basis of a translation from the original language into the following iguage—, which is the language of a translation furnished for the purposes of international search ider Rules 12.3 and 23.1(b)).
2.	Wit	th re	gard to any nucleotide and/or amino acid sequence disclosed in the international application and ary to the claimed invention, this opinion has been established on the basis of:
	a. t	уре	of material:
			a sequence listing
			table(s) related to the sequence listing
	b. f	form	at of material:
	1		in written format
	1		in computer readable form
	c. t	ime	of filing/furnishing:
			contained in the international application as filed.
	1		filed together with the international application in computer readable form.
	1		furnished subsequently to this Authority for the purposes of search.
3.		ha co	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto s been filed or furnished, the required statements that the information in the subsequent or additional pies is identical to that in the application as filed or does not go beyond the application as filed, as propriate, were furnished.
4.	Ada	ditio	nal comments:

International application No. PCT/EP2004/012356

-	Воз	c No. II	Priority
1.		The fol	lowing document has not been furnished:
			copy of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(a)).
			translation of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(b)).
			quently it has not been possible to consider the validity of the priority claim. This opinion has teless been established on the assumption that the relevant date is the claimed priority date.
2.		has be	elnion has been established as if no priority had been claimed due to the fact that the priority claim en found invalid (Rutes 43 <i>bis.</i> 1 and 64.1). Thus for the purposes of this opinion, the international ate indicated above is considered to be the relevant date.
3.	緻	was no	of been possible to consider the validity of the priority claim because a copy of the priority document tavailable to the ISA at the time that the search was conducted (Rule 17.1). This opinion has teless been established on the assumption that the relevant date is the claimed priority date.
4.	Ado	litional o	bservations, if necessary:

International application No. PCT/EP2004/012356

The obv	ne questions whether the claimed invention appears to be novel, to involve an inventive step (to be non povious), or to be industrially applicable have not been examined in respect of:							
	the entire international application,							
Ø	claims Nos. 26,27							
bec	ecause:							
0	the said international application, or the said claims Nos. relate to the following subject matter which does not require an international preliminary examination (specify):							
	the description, claims or drawings (indicate particular elements below) or said claims Nos. are so unclear that no meaningful opinion could be formed (specify):							
	the claims, or said claims Nos. are so inadequately supported by the description that no meaningful opinion could be formed.							
Ø	no international search report	has b	een established for the whole application or for said claims Nos. 26,27					
	the nucleotide and/or amino ac C of the Administrative Instruc	quence listing does not comply with the standard provided for in Annex in that:						
	the written form		has not been furnished					
		□	does not comply with the standard					
	the computer readable form		has not been furnished					
			does not comply with the standard					
	the tables related to the nucleonot comply with the technical r	ide a equin	and/or amino acid sequence listing, if in computer readable form only, do ements provided for in Annex C-bis of the Administrative Instructions.					
	See separate sheet for further details							

International application No. PCT/EP2004/012356

Box No. V Reasoned statement under Rule 43*bis.*1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)

Yes: Claims

No: Claims

1-25

Inventive step (IS)

Yes: Claims

No: Claims

1-25

Industrial applicability (IA)

Yes: Claims

1-25

see separate sheet

Box No. VII Certain defects in the international application

The following defects in the form or contents of the international application have been noted:

see separate sheet

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/EP2004/012356

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following documents:

D1: WO 03/061743 A (ANDERSON GREGOR JOHN MCLENNAN; BONNEY STANLEY GEORGE (GB); DAVIES MIC) 31 July 2003 (2003-07-31)

D2: US-A-5 310 082 (COUSTENOBLE JEAN-PIERRE) 10 May 1994 (1994-05-10)

1. The present application does not meet the criteria of Article 33(1):PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses a track adapted for use in a hand-held, capsule containing device (2000) which is adapted to receive a series of capsules (2004a) therein and defines a conveying path (space between the guiding wall (2007a) and the outer wall) along which the capsules are conveyable, wherein the path includes a fold section (2005a).

- 2. Furthermore the present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 does not involve an inventive step in the sense of Article 33(3) PCT over the disclosure of document D2. Introduction of a fold section into an endless (continuous) loop to improve the capacity of a dispensing device is to be seen as an obvious choice to those skilled in the art.
- Dependent claims 2-25 do not contain any features which, in combination with the
 features of any claim to which they refer, meet the requirements of the PCT in
 respect of novelty and inventive step, see documents D1 and D2 and the
 corresponding passages cited in the search report.

Re Item VII

Certain defects in the international application

The independent claim 1 is not drafted in the two-part form, as normally required by Rule 6.3(b) PCT.
